Half a Century of Anthropology : 

50 years of published research
This is how AIO looks like
This is an AIO search page

At present we have only this simple keyword search. I will be adding more keywords for early records and building a more detailed search. Eventually we will restore mailing results. Please do not select more than one decade as this will cause an error.

Recent means the past few years.

Keyword Search: 

Search  Clear
We entered the keyword we wanted to find information on and clicked the year range.
Example of search results in AIO
The Bigger Picture:
